changing the landscape of hair care across the continent. Since 2014 we've expanded our reach from Lagos, to Abuja, and Accra with plans to set up in other African cities. We've completed over 535 Hair Transplants, 2,370 MSP procedures, and 2,770 PRPs.

### **Our Hair Restoration Treatments**

Vinci Hair Clinic offers a comprehensive choice of surgical and non-surgical hair restoration solutions for men and women.

We specialise in FUE and Hair Transplant surgeries, including Beard Transplants and Eyebrow Transplants. In simple terms, these procedures move hair grafts from the side and back of the client's head to restore their areas of hair loss.

We offer both FDA-approved medications for hair loss - Finasteride and Minoxidil. Vinci Vitruvian Line vitamin and mineral complex and the Vinci LLLT Laser Cap can also be purchased directly from the clinic. These treatments can be used alone or to further boost the results of Hair Transplant surgery.
